REVIEW REPORT TO THE MEMBERS ON STATEMENT OF COMPLIANCE WITH BEST PRACTICE OF CODE OF CORPORATE GOVERNANCE

We have reviewed the Statement of Compliance with the best practices contained in the Code of Corporate Governance (the Code) for the year ended June 30, 2009 prepared by the Board of Directors of Pak Datacom Limited (the Company) to comply with the Listing Regulation of the Karachi, Lahore and Islamabad Stock Exchanges where the Company is listed.

The responsibility for compliance with the Code is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Company's Compliance with the provisions of the Code and report if it does not. A review is limited primarily to inquiries of the Company personnel and review of various documents prepared by the Company to comply with the Code.

As part of our audit of financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board's statement on internal control covers all risks and controls, or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

Further, Sub-Regulation (xiii) of Listing Regulations 37 notified by the Karachi Stock Exchange (Guarantee) Limited vide circular KSE/N-269 dated January 19, 2009 requires the company to place before the Board of Directors for their consideration and approval related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price recording proper justification for using such alternate pricing mechanism. Further, all such transactions are also required to be separately placed before the Audit Committee. We are only required and have ensured compliance of requirement to the extent of approval of related party transactions by the Board of Directors and placement of such transactions before the Audit Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the best practices contained in the Code, effective for the year ended June 30, 2009.

24 RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's activities expose it to a variety of financial risks, including the effects of changes in foreign exchanges rates, market interest rates, credit and liquidity risk associated with various financial assets and liabilities respectively as referred in note 24.5.

The Company finances its operations through equity, short-term borrowings and management of working capital with a view to maintaining a reasonable mix and to minimise risk.

Taken as a whole, risk arising from the Company's financial instruments is limited as there is no significant exposure to market risk in respect of such instruments.

24.1 Foreign currency sensitivity

Most of the Company's transactions are carried out in Pak Rupees. Exposures to currency exchange rates arise from the Company's receivables and payables, which are primarily denominated in other than Pak Rupees. The activities of the Company expose it to foreign exchange risk, primarily with respect of US Dollars.

To mitigate the Company's exposure to foreign currency risk, non-Pak Rupees cash flows are monitored in accordance with Company's risk management policies. Generally, the Company's risk management procedures distinguish short-term foreign currency cash flows (due within 6 months) from long term cash flows. Where the amounts to be paid and received in a specific currency are expected to largely offset one another, no further hedging activity is undertaken. Foreign currency denominated financial assets and liabilities, translated into Pak Rupees at the closing rate, are as follows.

The following table illustrates the sensitivity of the net result for the year and equity in regards to Company's financial assets and liabilities and US Dollar - Pak Rupee exchange rate and Bangladesh Taka (BD Taka)-Pak Rupees exchange rate.

It assumes a + 12.94%/-9.29% change of the US Dollar exchange rate for the year ended at June 30, 2009 (2008: 4.18%/-11.27%) and a + 14.58%/-8.76% change of the BD Taka exchange rate for the year ended at June 30, 2009 (2008: 6.22%/-11.07%). Both of these percentages have been determined based on the average market volatility in exchange rates in the previous 12 months. The sensitivity analysis is based on Company's foreign currency financial instruments held at each balance sheet date.

If the Pak Rupee had strengthened against the US Dollar by 12.94% (2008: 4.18%) and BD Taka by 14.58% (2008: 6.22%) then this would have had the following impact:

	2009 USD Rupees	2008 USD Rupees	2009 BD Taka Rupees	2008 BD Taka Rupees
Net result for the year (exchange loss)	10,769,209	3,525,387	577,548	138,870

If the Pak Rupee had weakened against the US Dollar by 9.29% (2008: 11.27%), and BD Taka by 8.76% (2008: 11.07%) then this would have had the following impact:

	2009 USD Rupees	2008 USD Rupees	2009 BD Taka Rupees	2008 BD Taka Rupees
Net result for the year (exchange gain)	7,728,741	9,509,090	435,622	294,882

	<u>101,599,940</u>	<u>172,458,824</u>
